Head teacher

E-LEARNING: DEVELOP THE SAFETY LEADERSHIP OF YOUR MANAGERS

INTER + INTRA entreprise

Public

This course is for managers who need to improve safety culture through leadership

Prerequisites

No prerequisite

Pedagogical modalities

A fun and educational mix comprised of e.g. quizzes, videos, articles and tests

Goals

- Understanding the role of a leader,
- Making the company's safety policy meaningful, and encouraging teams to work towards shared objectives,
- Communicating a clear vision, capturing the attention of recipients and generating a debate,
- Understanding how to make safety the priority in trade-offs,
- Understanding field activities and running a safety visit,
- Promoting cooperation and shared vigilance,
- Providing positive feedback and ensuring a fair response.

Programm

This 7-module course addresses the key skills of a safety leader:

1. Module 1: Introduction to safety leadership,
2. Module 2: Safety vision,
3. Module 3: Safety communication,
4. Module 4: Managing trade-offs,
5. Module 5: Spending time in the field & safety visit,
6. Module 6: Questioning attitude and shared vigilance,
7. Module 7: Just culture
